ENVIRONMENTAL CONTROL REMOTES THAT SUIT YOU

RECEIVERS THAT MULTIPLY THE POSSIBILITIES

Control the environment in a convenient and personalized way. Thanks to the combination of infrared and radio frequency technologies in all the remotes, the possibilities are limitless.

A REMOTE FOR EACH SITUATION

CONTROL BUTTON

The first steps for environmental control.

- 6 buttons with interchangeable covers
- Very robust
- 6 switch inputs available

CONTROL PRO

Control the entire home by direct press or scanning

- 14 buttons with up to 8 functions each
- Access via direct press or scanning
- Design your own cover with the preferred functions

CONTROL 6

Access the basic functions in the simplest way

- 6 buttons with up to 2 functions each
- Light and ergonomic

CONTROL USB

Control your environment from the PC or communicator

- Unlimited functions
- Control software included
- Compatible with Grid 3, Tobii Communicator, etc.

CONTROL+

The environmental control remote is your tablet or smartphone

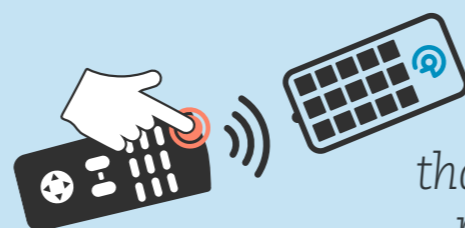

- Compatible with iOS and Android devices
- Customisable app
- Use the same access options available in the mobile device (mouse, scanning...)

IR LEARNING:

Integrate control of the TV, music equipment, etc. in your adapted remote without accessories. Do this in three easy steps:

- 1 Choose the button that you want to program and enter the programming mode
- 2 Press the button on the original remote control for the TV, computer, multimedia, etc.
- 3 The button is now stored and you can use it whenever you want

Control all elements of the house that already have remote controls.

You can repeat this with all the functions that you would like to control for the different devices at home!

RADIO FREQUENCY, THE TECHNOLOGY THAT MAKES THE DIFFERENCE

- > Jumps obstacles
- > Controls elements from other parts of the house
- > No need to aim
- > The receivers can be hidden

RECEIVERS WITHOUT INSTALLATION, PLUG & PLAY

ENABLER SOCKET+

Control any appliance

- ON/OFF mode and timed
- Switch input

ENABLER ALARM

Warn any caregiver who might be in another room of the house.

- 4 tones available
- Plug always available and ON

ENABLER BED

Control the movements of the bed

- Compatible with different engine models
- Operates simultaneously with the standard bed remote

ENABLER PHONE

Call who you want and answer calls

- Dial digit to digit or up to 10 memories
- Switch input for emergency calls

RECEIVERS THAT REQUIRE INSTALLATION

ENABLER ELECTRIC MOTOR

ENABLER 2R

ENABLER 1R

ENABLER 9R

Thanks to these receivers you can control doors, ceiling lifts, lights, windows, blinds, lifts and all that you can imagine. Their installation is very simple for any electrician.
