SWITCH

MYROOM! CENTRE

It contains a multimedia computer and all the required accessories

A KEY CONCEPT: MYROOM! SCENES

The scenes are combinations of any video, image, sound, light, vibration or effect that are easily created and personalized for every user.

Examples of scenes:

- A song while a mirrorball shines
- A video of a motorcycle while feeling the vibration of the engine
- The picture of an animal as we hear its name and feel the sound and vibration
- A projection of a beach paradise with blue lighting while feeling the breeze.

You can use any video, image or sound that you have or can download from the Internet.

"Whenever my daughter presses a button, we travel to the desert, to the sea or go into space. We share very special moments that help her grow."

"Now that my disease is at a later stage, MyRoom! allows me not to spend all day in bed. I I'm comfortable, I can choose my favourite videos and I can be alone."

"As a parent, it's a great satisfaction to see my son learn to be alone, make his own decisions and have fun without our help."

"For us MyRoom! is a safe place to share, communicate and enjoy magical experiences that we prepare together. It is our base camp!"
