

Additional receiver for BJOY Ring Wireless

BJ-883

Connect BJOY Ring Wireless to more than one device

Increase the performance of your **BJOY Ring Wireless** with the additional receiver!

Use your BJOY Ring Wireless to access **several devices** (PC, Android tablet and mobile), and switch easily between them all with a joystick gesture or double switch press configured in the BJOY Software.

You can pair your BJOY Ring with up to **4 receivers** , so you can control 4 different devices from your wheelchair's joystick, without needing to connect any cables, simply by **approaching** the device you want to control (if it's in a different room) or switching between them all.

This product is part of the BJOY range of products.

- Operating systems supported: Windows, Linux, Android, Chrome OS, Mac OS, iOS.

Compatible with switch
