

SHX LED UV Spotlight

BJ-EIFUVLX

LED Ultraviolet spotlight

A powerful, long-lasting **LED spotlight** that emits ultraviolet light in a specific area.

The lighting elements **are controlled with the** SHX System **or the** MyRoom! Center, which allows you to **change the colors** and adjust the **intensity** of the lighting **depending on the activity and the ambient noise**.

Our lighting products are compatible with the SHX System, which can be used to **create themed environments** in your room to increase the impact of the colors and the elements on the users.

This DMX spotlight is composed of 55 high brightness long-life LEDs.

- DMX Lamp with 55 LEDs
- Works on 230V
- For its use with the SHX System
