Change the colors of this lighted and vibrating ball pit

Ball pits are a **fun therapeutic** element that encourages movement and play. The massaging and **vibration** effects of the balls also encourages proprioception, self-awareness and movement.

Illuminated ball pits consist of **transparent balls** that allow **coloured light** to pass through them and be projected from inside the pit, creating an incredible light effect that boosts interaction.

Feel any sound or music running through your body thanks to this **vibroacoustic ball pit** which follows the rhythm of music. Dive into the magical fun of a pit full of balls that change color. Allow yourself to be surrounded by and wrapped in colored light while you play and learn without realizing it.
