

UV LED Bar

BJ-EIBLUV

Create a LED Ultraviolet environment

A powerful, long-lasting **LED spotlight** that emits ultraviolet light in a specific area.

Use it in [ultraviolet corner](#). Open a door to the **multisensory world** by installing an ultraviolet corner in your Snoezelen or sensory room, or a small space in any bedroom. When the lights go out, the darkness reveals mysteries and objects that only shine in this corner.

This DMX spotlight is composed of 55 high brightness long-life LEDs.

- 6x 3W Leds UV
- Funciona a 230V
- Consumo 20W
- Medidas: 360x53x55mm
